

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

**HALL'S PATENT.**

**HALL, CARROLL & CO**

**THE MOST RELIABLE FIRE BURGLAR PROOF SAFES.**—They have more satisfaction than any other now in use. We offer a reward of ONE THOUSAND DOLLARS to any person who, up to the present date, can furnish a single instance wherein they have preserved their contents.

With this SAFE we challenge all competitors being the best Fire Proof, Burglar Proof, and a Burglar Proof safe made, and will give \$1,000 to any establishment in the Union, and the failing first to forfeit to the other the sum of \$1,000.

We are prepared to furnish a better Safe, and one, than any other manufacturer in the United States.

Second-hand Sales of other makers also on hand.

We respectfully invite the public to call and

the our stock before purchasing elsewhere.

**THIS PUMP POSSESSES QUALITIES** that give it an advantage over all others. It always supplies fresh water; it never freezes up in winter; it never requires priming to make it fetch water; it gives all the agitation necessary to keep water pure and healthy.

It allows the water to return without trouble. One can always be seen in operation, together with an excellent Garden Engine, under the pump, at the factory, 602 Fifth-st., between 17th and 18th Street Depot.
